

Learn what the latest research from McREL means to your school.

SDA NEEDS ASSESSMENT AREAS:

- * Leadership and Learning Communities
- * Data Analysis
- * Systems Based School Improvement
- * Coaching for Improved Instruction

Balanced Leadership Framework w/McREL

GOAL:

Coordinate with leadership pilot project within the state and assist ESUSDA staff to provide training to school leaders.

This session, Balanced Leadership Framework, focuses on the six major research findings from McREL's meta- and factor-analyses on principal leadership. It also includes an introduction to the concept of shared leadership, balanced leadership, and the Balanced Leadership Framework.

The major expected learning outcomes for this session are: Increased understanding of McREL's research on principal leadership, correlating leadership responsibilities with student achievement; increased knowledge and skills for improving leadership practices; awareness of the degree to which individual participants fulfill research-based leadership responsibilities; provide professional developers information and opportunities for a training-of-trainers format for offering this at our local sites.

**Tuesday
November 15, 2005
9:00-3:00
And
Wednesday
November 16, 2005
9:00-12:00**

**ESUSDA meeting is
being held Monday
afternoon**
